

GHC development flow

walking guide for new contributors

Takenobu T.

Rev. 2016-Oct-28

WIP

NOTE

- This is not an official document by the ghc development team.
- Please refer to the official documents in detail.
- This information is current as of Oct, 2016.

Overall relationship

Development layers

Haskell packages

GHC compiler
+ Core Libraries

GHC compiler

Compiler + Runtime system

Main ML : [ghc-devs at haskell.org](#) [1]
Steering by [GHC Committee](#) [2]

Haskell Core Libraries

base, array, process,...

Main ML : [libraries at haskell.org](#) [3]
Steering by [Core Libraries Committee](#) [4]

Haskell Language

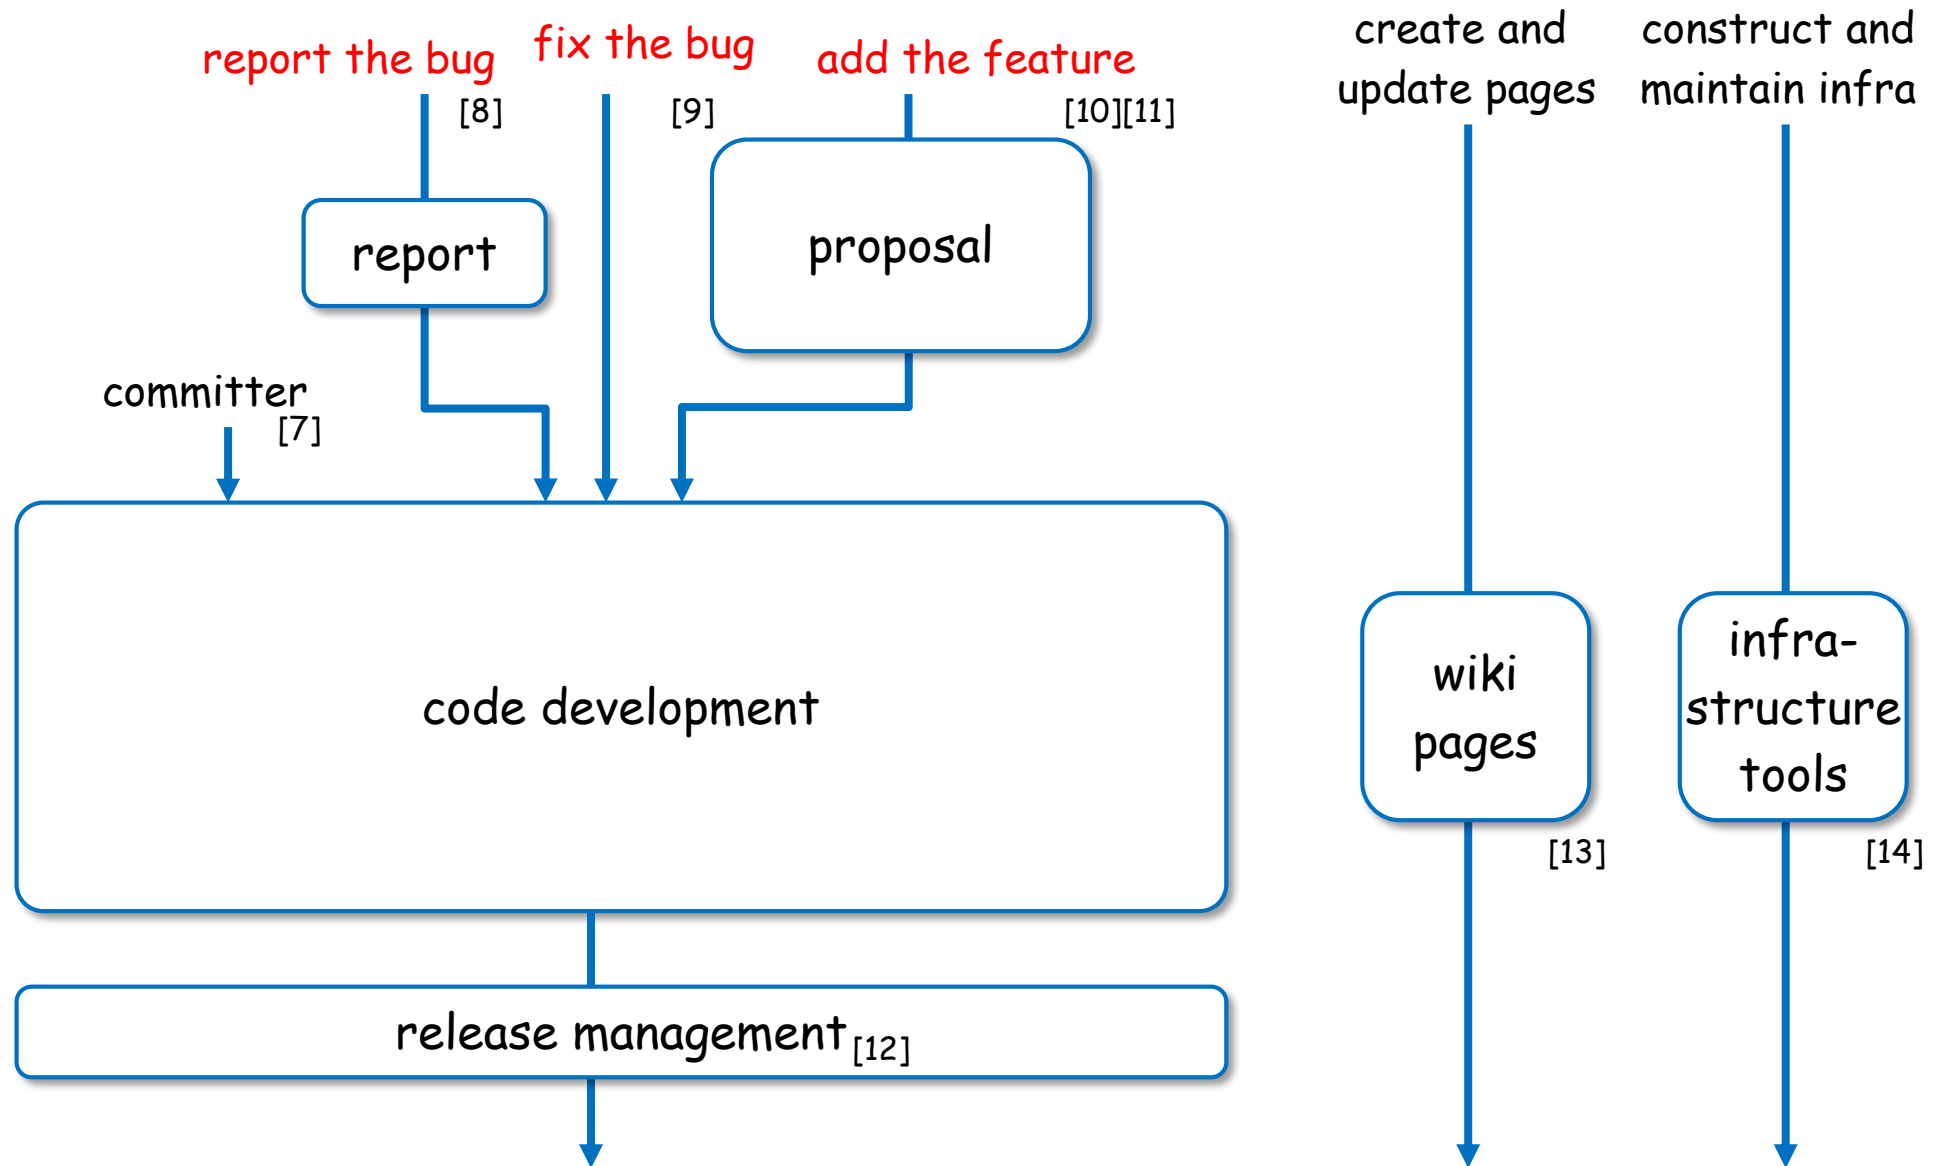

Language Report

Haskell 98, Haskell 2010,
Haskell 2020

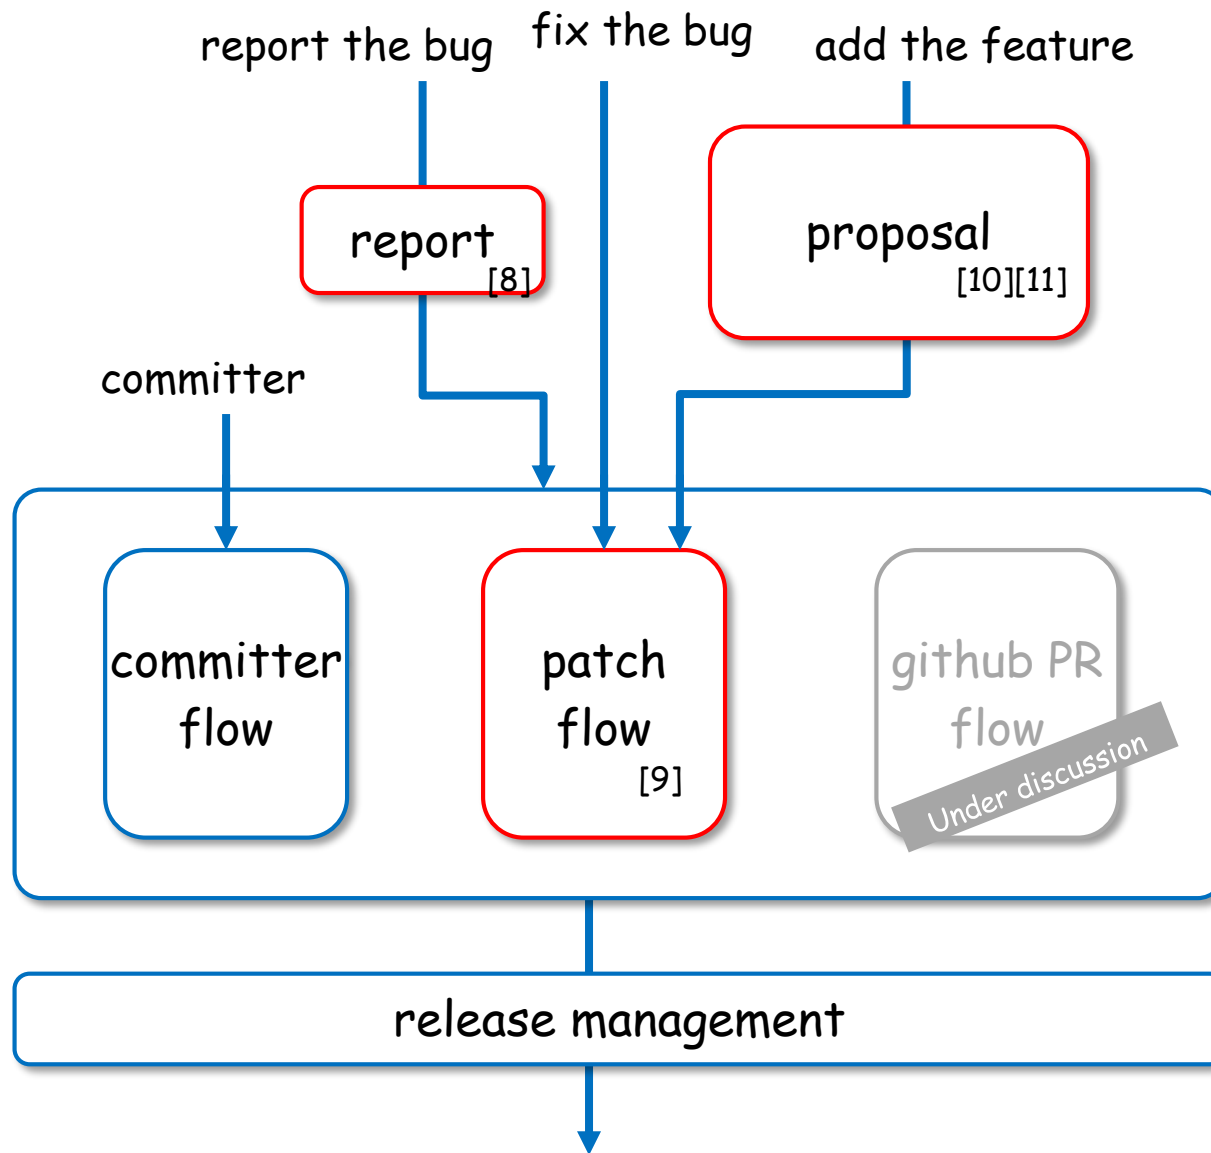

Main ML : [haskell-prime at haskell.org](#) [5]
Steering by [Haskell 2020 Committee](#) [6]

GHC compiler development flow

GHC compiler development flow (overview)

GHC compiler code development flow

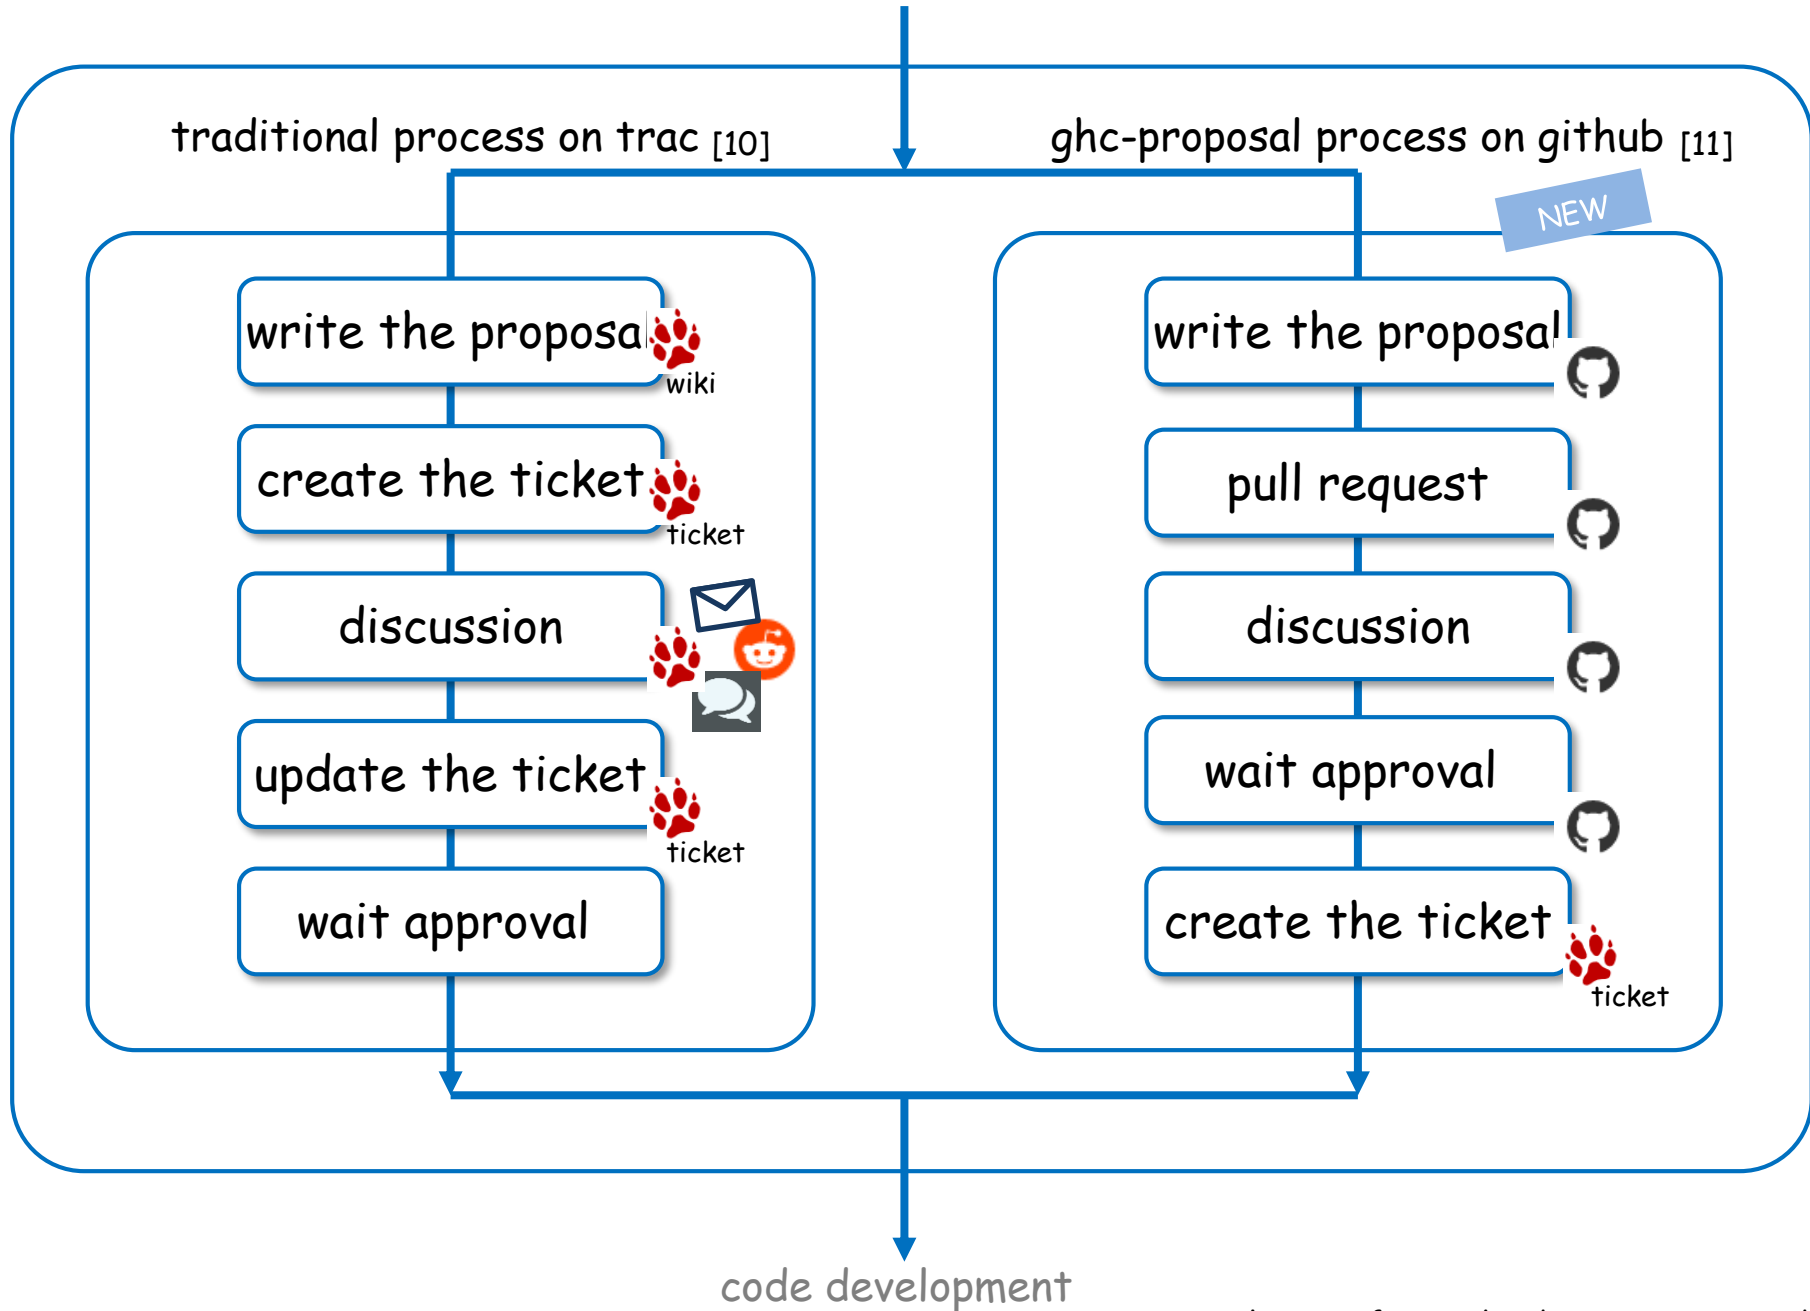

Report flow

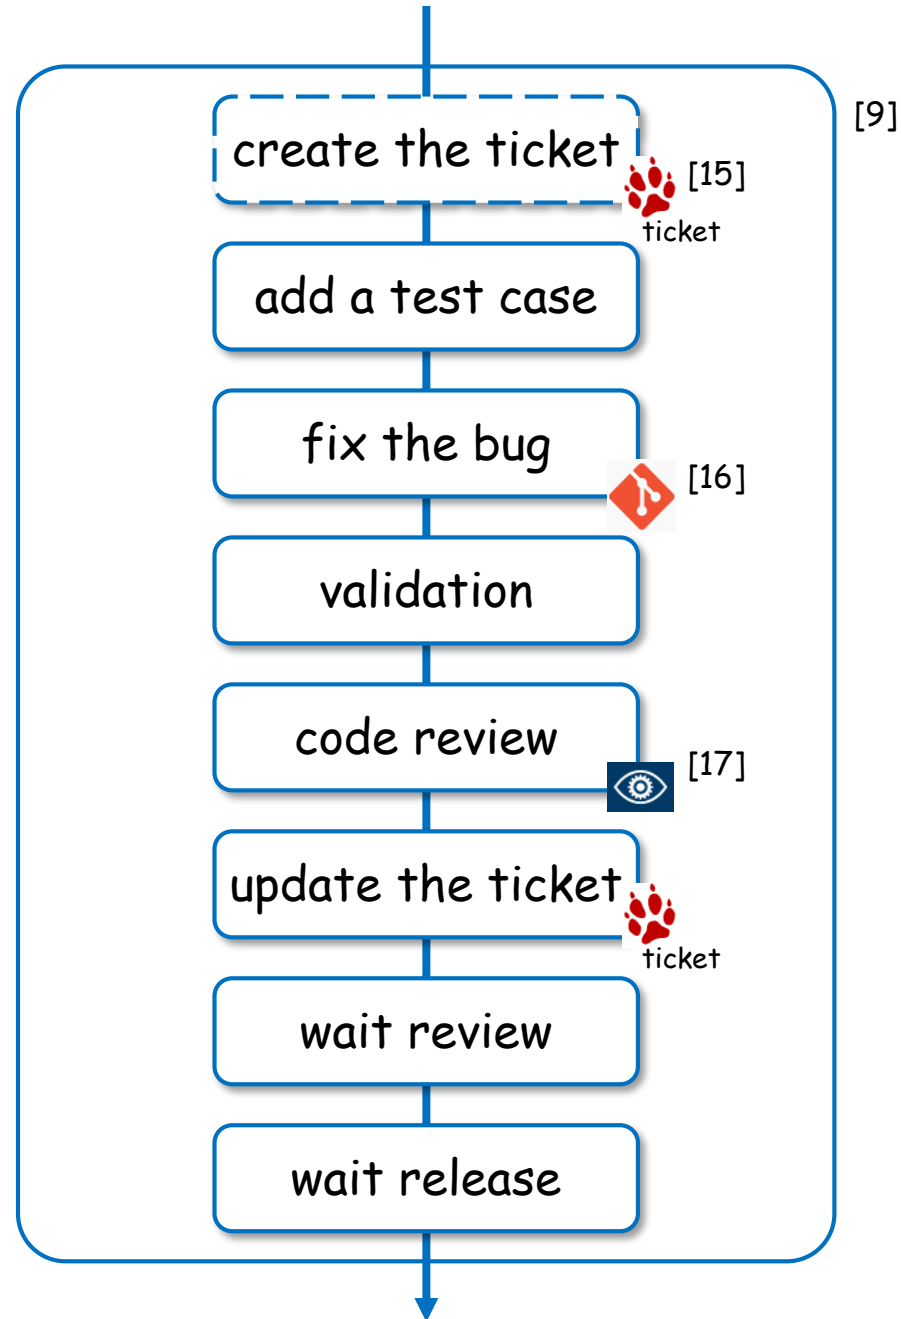

Please consult ghc-devs ML if you worry.

Proposal flow

Please refer to the documentation in details.

Patch flow

Please refer to the documentation in details.

Infrastructure tools

Tool relation

communication

discussion
